INDEX.

A

Abdominal aneurysm, 752
injuries in children, 445
pain in children due to enterospasm, 599
viscera, subcutaneous injuries of, 441
Abnormal behavior, physical problems of, 304
Abortion, spontaneous, streptococci and, 145
Abscess of larynx in infants, 446
Acne vulgaris, Roentgen ray treatment of, 743
Addis, T., renal lesion in Bright's disease, 617
Addison's disease in the negro, 499
Adenoma, toxic, effect of iodin in, 598
Air passages, nonopaque foreign bodies in, 749
Alcoholic intoxication, a quantitative study of, 153
Alcoholism, new clinical aspects of, 168
Alopecia areata, physiopathologic mechanism of, 884
traumatic, 884
Allergic diseases, hereditary factor in, 332
Anaphylaxis and tissue culture, 459
Anesthetic vomiting, 130
Aneurysm, abdominal, 752
of splenic artery, 195
Angina pectoris, a syndrome caused by anoxemia of myocardium, 439
Antibody production in tissue culture, 461
Antirachitic vitamin, formation of, in absence of light, 740
Appendicitis, microbic associated in, 460
Arnett, John H., cardiovascular findings in woman with syphilis, 65
Arsenic in excretions, significance of, 215
Arthritis deformans, treatment of, parenteral injections of sulphur in, 444
effect of antirheumatic drugs on, 131
menopause and, 890
Auricular fibrillation in children, 601
Awe, Chester D., Malta fever: a report of five cases, 837

B

Bacteria, filtrable forms of, 892
Bacterial flora of small intestines, food and, 144
Bacteriology of cholecystitis, 614
Balyeat, Ray M., hereditary factor in allergic diseases, 332
Bank, Joseph, neurogenic mucous colitis, 813
Basal metabolism in lymphoblastoma, 577
Bemerkrungen zu den Mechanisch Diagnostischen Methoden in der Chirurgie des Zentralnervensystems, 754
Bennett, T. Izod, Raynaud's disease associated with cancer of the stomach, 654
Bile duct, obstruction of, effects of, 285
Blacktongue-preventive action of 16 foodstuffs with special reference to identity of blacktongue of dogs and pellagra of man, 895
Blankenhorn, M. A., new clinical aspects of alcoholism, 168
Bloch, Leon, liver function as determined by bromsulphalein, 367
Blood, absorption of, from peritoneal cavity, 595
bilirubin, value of routine estimations of, 321
calcium, relation between mother and fetus and, 447
capillaries of rabbit, contractility of, transparent chamber of ear and, 151
changes in malignant disease, 200
formation and blood destruction, high butter-fat diet and, 440
monocytes in tuberculous children, 600
pressure, relation of blood sugar to, 761
regeneration in severe anemia: influence of inorganic ash of liver, kidney and apricots, 128
serum, hemocidal properties of, 284
in syphilis and tuberculosis, alkali reserve of, with coincident study of influence of vegetative nervous system, 134
volume in fever, 127
Bloom, Arthur, gastric polyposis, 681
Blumgart, Herrman L., treatment of diabetes insipidus with pituitary posterior-lobe extract applied intranasally, 769
Boardman, W. W., uncertainties of cholecystography, 383
Boas, Ernst P., neurogenic disorders of heart, 789
Bockus, H. L., neurogenic mucous colitis, 813

Bogen, Emil, drunkenness, a quantitative study of acute alcoholic intoxication, 153
Bower, John O., Bacillus welchii (perfringens) antitoxin—its therapeutic value, 97
Brain, glioma of radiation treatment of, 42
Roentgen therapy of, 299
Bright's disease, renal lesion in, 617
Bronchiectasis, nasal accessory sinus disease and, 298
Bronchus, benign neoplasms of, 720
Brucella melitensis var. abortus infection in man, clinical aspects of, 405
Bundle-branch block, clinical recognition and physical signs of, 737
Butler, Paul F., diaphragm excursions, normal and pathologic, 569

C

Campbell, John R., Jr., treatment of diabetes insipidus with pituitary posterior-lobe extract applied intranasally, 769
Meredith F., nongonorrheal nontuberculous epididymitis, 386
Cancer, cervical combined method of treating, 449
cervical, irradiation in, results of, 744
medical problems in diagnosis and treatment of, 560
Carcinoma of cervix, radium treatment of, five year end results of, 750
of lung, 441
primary, bronchial type, 454
of ovary in infancy, 603
of pancreas, 31
Carson, Donald A., effect of iodin upon experimental hyperthyroidism in man, 701
Cerebellar tumors occur in identical twins, 290
Cerebral pneumography, 143
symptoms, supratentorial tumors and, 891
Cerebrospinal fluid, normal variations in rate of formation of, 130
of premature infant, 741
pressure in newborn, 290
Cervical cancer, combined method of treating, 449
fibroids, 745
Cervix uteri, cancer of radium in treatment of, 890
Cholecystitis, bacteriology of, 614
Cholecystographic studies after administration of some of the popular cholagogues, 751
Cholecystography, uncertainties of, 383
Chorea in tonsillectomized children, 296
Clark, Jefferson, Bacillus welchii (perfringens) antitoxin—its therapeutic value, 97
Clasmatocytes, mobilization and transfer of, 757
Cohn, David J., effect of external temperature on sedimentation rate of red blood corpuscles, 211
Coley, Bradley L., surgical complication of diabetes, 491
Colloidal lead in malignant disease, failure of, 598
Colon, polyposis of, Roentgen diagnosis of, 141
spasticity of, 889
ulceration of, 888
Colonic malignancy, 456
studies (high cecum), 442
Common cold, studies in, 760
colds, nutritional edema and, 886
Congenital malaria, 133
rickets, 133
sarcoma, case of, 290
syphilis, 740
Convulsions in infancy, epilepsy and, 612
Corpus, common injuries of, treatment of, 739
Craver, Lloyd F., medical problems in diagnosis and treatment of cancer, 560
Cullen, Thomas S., carcinoma of pancreas, 31
Cystitis cystica, etiology and pathology of, 756
Cystoscopy reactions, 885

D

Dana, Harold W., diaphragm excursions, normal and pathologic, 569
Davenport, A. B., spontaneous heart rupture, 62
Davis, David, significance of afferent impulses from the skin in mechanism of visceral pain. Skin infiltration as a useful therapeutic measure, 517
Diabetes, etiology of, experiments on, 128
hypertension and, 23
and hyperthyroidism, 1
mellitus, surgical complication of, 491
Diamond, Joseph S., value of routine estimations of blood bilirubin, 321
Diaphragm, paradoxic movement of, 141
Dickens, Paul F., differential diagnosis of surgical from non-surgical jaundice by laboratory methods, 690
Digestive function in avitaminoses, 127
Diphtheria carriers, treatment of, 740
from carriers, spread of, 757
malignant, with combined diphtheria and streptococcus antitoxin, 287
Dock, William, effect of iodin upon experimental hyperthyroidism in man, 701

Douglas' pouch, puncture of, diagnostic, 137
Duodenal ulcer, most common roentgenologic sign of, 301

E

Eclampsia, toxicity of blood serum proteins in, 448
Eisen, David, blood changes in malignant disease, 200
Encephalography *via* lumbar route, 754
Endemic goiter in Oregon, 464
Eosinophilia in hay fever, 82
Epidemic encephalitis, forced conjugate upward movement of eyes following, 303
Epididymitis, calcium chlorid in treatment of, 399
nongonorrheal nontuberculous, 386
Epilepsy, control of fits and betterment of mental symptoms in, 446
relation between brain and liver weight in, from standpoint of onset and duration, 753
Ergosterin, irradiated, therapeutic value of, 443
Erysipelas, serum treatment of, 737
Evans, L. S., Addison's disease in the negro, 499
Exophthalmic goiter, difficulties in diagnosis of, 285
Eye, diseases of, treatment of, by ultraviolet light, 746
Eyes, upward movement of, 606

F

Farnum, Waldo B., effect of tonsillectomy on existing cardiac disease in adults, 474
Fat, influence of, on utilization value of infant's diet, 601
Fetal mortalities, 741
postmortem at Chicago Lying-in Hospital, 447
Fever, blood volume in, 127
Fibroids, cervical, 745
Fiertz, Charles O., clinical significance of the life cycle of the parasite in induced malaria, 664
Fischer, Alfred E., pulmonary sequelæ of tonsillectomy in children, 253
Food allergy in certain infants, possible causal factor of, 742
Fradkin, William Z., accessory spleens, their significance in essential thrombocytopenic purpura hemorrhagica, 672
Francis' disease, 594
Friedenwald, Julius, carcinoma of pancreas, 31
Fulton, Marshall M., relation of hypertension to mitral stenosis, 465
Fungus infections, local allergy in, 135

G

Gallbladder, unusual deformity of, 610
Gastric polyposis, 681
symptoms, interpretation of, 736
Gastrointestinal tract, Roentgen examination of, amyl nitrite as antispasmodic in, 887
Gilman, Robert L., clinical comparison of Kolmer modification of Wassermann test and Kahn precipitation test in syphilitic and nonsyphilitic cases, 843
Glomerular elimination of phenolsulphonephthalein and indigo carmin, experiments on, 899
Goldblatt, Samuel, acute mercurial intoxication, 645
Gonorrhea, treatment of, with living gonococci, 744
Gordon, Murray B., effect of external temperature on sedimentation rate of red blood corpuscles, 211
Graham, Duncan, electrocardiographic study of 123 cases of diabetes mellitus, 782
Growth, rate of, effect of temperature on, 152

H

Habliston, Charles C., intrapleural pressures in massive collapse of lung, 830
Hay fever, eosinophilia in, 82
Heart block, high-grade, retrograde stimulation of auricles and rapid *A–V* sequences during, 150
disease, rheumatic, 445
in tonsillectomized children, 296
unproved impressions concerning, 594
in infection, 877
neurogenic disorders of, 789
rupture, spontaneous, 62
Hemolytic streptococci in upper respiratory tract of scarlet fever convalescents, 148
Hemorrhage from throat, 609
Hepburn, J., electrocardiographic study of 123 cases of diabetes mellitus, 782
Herpes, recurrent, treatment of, with cowpox vaccine, 131
High-voltage cathode rays, effect of, on skin of rat, 893
Hunt, Edward Livingston, aneurysm of splenic artery, 195
Hyman, J. M., Jr., importance of diuresis in treatment of certain cases of mercuric chlorid poisoning, 510
Hyperglycemic response to injections of certain killed bacteria, 145
Hypersensitiveness, specific, acquisition of, 440

Hypertension, eye and, 747
relation of, to mitral stenosis, 465
Hyperthyroidism without visible or palpable goiter, 504
Hypotonic solutions, effect of, on intracranial pressure, 149
Hyslop, George H., radiation treatment of glioma of brain, 42
Hysterosalpingography, iodipin and, 141

I

Icterus neonatorum, 601
Infant feeding, Knoepfelmacher's modified butter meal in, 883
mortality, analysis of, by causes, 464
Infantile convulsions, head-banging and breath-holding, relation of, to fainting and headaches in the parents, 445
scurvy, 455
Infants, feces of, influence of feeding on certain acids in, 134
Infection, closed space, distal anterior, 738
Inguinal hernia, repair of, present status of, 739
Insulin action, depending of, on activity of the female sex glands, 443
hypersensitiveness, 707
successful administration of, in presence of Addison's disease, 288
Intestinal amebiasis due to infection with Entamœba histolytica, 878
obstruction, acute, causes of, death in, 281
tuberculosis, Roentgen diagnosis of, 141
Intestine in newborn, spontaneous rupture of, 133
Intestines, large, surgery of, 879
Intraoral cancer, radium in, 142
surgery in, 142
Intussusception in children, early diagnosis of, 880
roentgenologic aspect of, 610
Iodization of public water supplies for prevention of epidemic goiter, 147
Ions in free diffusion, mobility of, 896
Islets of Langerhans, exposure to Roentgen rays and, 146

J

Johnson, Lucius W., differential diagnosis of surgical from nonsurgical jundice by laboratory methods, 690
Joslin, Elliott P., diabetes and hyperthyroidism, 1
